PROFESSIONAL SUMMARY

Seasoned Flutter Developer with 4.5+ years of experience designing and deploying scalable applications using Flutter and MERN stack. Expertise in Agile project management, Clean Architecture, and CI/CD pipelines, with a strong focus on TDD and code quality. Proven ability to lead cross-functional teams, optimize DevOps workflows, and deliver high-performance solutions aligned with business objectives. Adept at bridging technical execution with client needs, consistently achieving 100% on-time delivery and 95%+ user satisfaction.

TECHNICAL SKILLS

1. **Languages:** Dart, JavaScript, TypeScript, HTML5, CSS3, SQL/NoSQL
2. **Frontend:** Flutter, React, Next.js, Tailwind CSS, Responsive Design
3. **Backend:** Node.js, Express.js, RESTful API Development, Microservices
4. **Databases:** MongoDB, PostgreSQL, Firebase, NoSQL
5. **Tools & Platforms:** Jira, Confluence, Figma, Postman, Git, Docker
6. **DevOps:** Jenkins, GitHub Actions, Firebase App Distribution, Fastlane
7. **Testing Tools:** TDD, Unit/Integration Testing (Mockito, bloc_test, node:test, Jest), Test Automation
8. **Methodologies:** Agile, Scrum, Kanban, Waterfall
9. **Deployment:** Google Play Store, Apple App Store
10. **Leadership & Collaboration:** Code Reviews, Cross-Functional Team Leadership, Mentorship, Agile Project Management

EXPERIENCE

Software Engineer: Techblue Software Private Limited, Gurgaon   *Nov 2023 – Present*

1. **Flutter Development & Architecture:**
   a. Engineered PropCo, a scalable B2B real estate management platform using Flutter (Bloc, Provider), adhering to Clean Architecture principles to enhance maintainability and scalability.
   b. Developed Connect (lead management) and Rooms & Material Info (property listing compliance) modules, increasing client workflow efficiency by 35%.
   c. Built interactive, data-rich dashboards with real-time analytics using Flutter charts and Firebase, enhancing stakeholder visibility into operations.
2. **Test-Driven Development (TDD) & Code Quality:**
   a. Authored 560+ unit test cases & 100+ widget test cases with Mockito and bloc_test, achieving 98% code coverage and reducing post-deployment bugs by 40%.
   b. Enforced code review workflows using GitHub and Jenkins pipelines, improving maintainability and SOLID compliance across a 5-member team..
3. **DevOps & CI/CD Leadership:**
   a. Automated CI/CD pipelines in Jenkins, cutting deployment cycles by 50% and streamlining transitions across QA, Staging, and Production environments.
   b. Integrated Agile practices using Jira and Confluence, streamlining sprint planning for 3 concurrent projects and achieving 95% sprint goal completion.
4. **Cross-Functional Collaboration:**
   a. Partnered with marketing, sales, and IT teams to align technical solutions with business objectives, boosting client retention by 20%.
   b. Mentored 4 junior developers in Flutter best practices, TDD, and Clean Architecture, resulting in a 30% increase in code delivery speed.

Software Developer: Brainium Information Technologies, Kolkata   *Jul 2022 – Nov 2023*

1. **Full Stack Development:**
   a. Led development of 8 mobile applications using Flutter, integrating platform-specific SDKs via platform channels (Android/iOS) when needed.
   b. Developed real-time Flutter applications with deep API integration and dynamic UI updates.
   c. Used Firebase and custom backend APIs to implement messaging, notifications, and data sync.
   d. Implemented performance profiling and caching strategies to boost performance by 20%.
2. **Agile Project Leadership:**
   a. Directed cross-functional teams using Jira and Scrum, slashing project timelines by 30% and achieving 100% on-time delivery.
   b. Conducted weekly code reviews and mentored 3 junior developers in Flutter and Node.js best practices, improving code quality by 40% and reducing bugs in production.
3. **Client & Performance Excellence:**
   a. Maintained 95% client satisfaction by resolving issues proactively and delivering apps with 4.8/5 user ratings.
   b. Spearheaded app performance optimization and implemented Firebase crash reporting to reduce bugs by 20%.

Software Developer: Zoom Enterprises, Mumbai   *Feb 2021 – Jul 2022*

1. **Mobile App Development:**
   a. Delivered and deployed 3+ apps on Play Store and App Store, optimizing for both platforms.
   b. Participated in full deployment cycles for cross-platform apps on App Store and Play Store.
   c. Integrated camera and storage APIs while ensuring optimal resource usage on both Android and iOS devices.
2. **Problem Solving & Process Improvement:**
   a. Applied MVC/MVVM principles to refactor legacy code and improve maintainability.
   b. Proposed and adopted widget reuse strategies, cutting redundant code by 30% and accelerating feature development.
3. **Professional Growth:**
   a. Collaborated with senior engineers to implement TDD fundamentals, contributing 50+ unit test cases using Mockito and bloc_test.
   b. Integrated Firebase Auth and Firestore into multiple app features and improved Git versioning skills through collaborative sprints and feature rollouts.

EDUCATION

Rashtriya Vishwa Vidyapeeth   *Jun 2013 – Apr 2016*

Bachelor of Design in Interior Design   Mumbai, Maharashtra

CERTIFICATIONS

1. JavaScript Foundations Professional Certificate by Mozilla
2. Explore Web Development with Node.js
3. Aspire Journeys: Core DevOps Skills
4. Docker Foundations Professional Certificate
5. DevOps Professional Certificate by PagerDuty and LinkedIn
6. Career Essentials in GitHub Professional Certificate
7. Aspire Journeys: Mobile Development
8. Aspire Journeys: Working with MongoDB Atlas
